

# ArcGIS Dashboards: How will the Post-COVID19 World Make Better Decisions?

Dr. Mehrdad Koohikamali  
CIS Department  
Cal Poly Pomona – September 2020

A person wearing a full white protective suit, including a hood and mask, is pushing a gurney. On the gurney is a body bag. The scene is set in a parking lot with a white van and a building in the background. The image is dimly lit and has a dark overlay.

2020

# COVID-19 Efforts to Effective Response

Gardner, a civil and systems engineering professor in the Whiting School of Engineering, led the team that built the COVID-19 Dashboard in late January.

9/24/2020

# Topics Covered

- Dashboards and Benefits
- Design Effective Dashboards
- ArcGIS Dashboard and Key concepts
- COVID-19 Case Example
- Learning and Tutorials
  - <https://www.esri.com/training/catalog/search/>
  - <https://www.esri.com/arcgis-blog/products/ops-dashboard/mapping/create-first-arcgis-dashboards/>

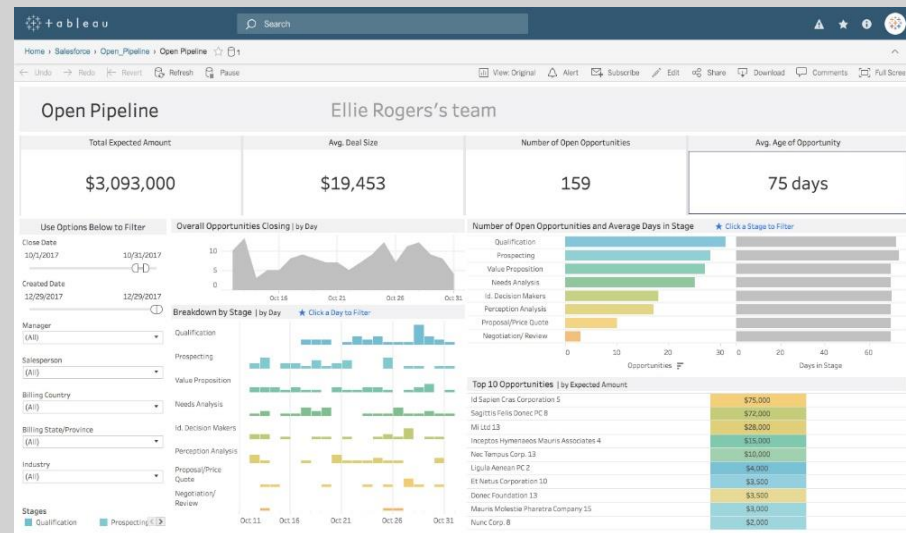

# Dashboards

- Visual display of the most important information curated for one or more goals
- Designed, arranged, and stacked on one page
- Go to place to monitor key performance indicators (KPI)
- Quick and easy way to get real-time valuable information
- Facilitate at a glance information sharing and decision-making

9/24/2020

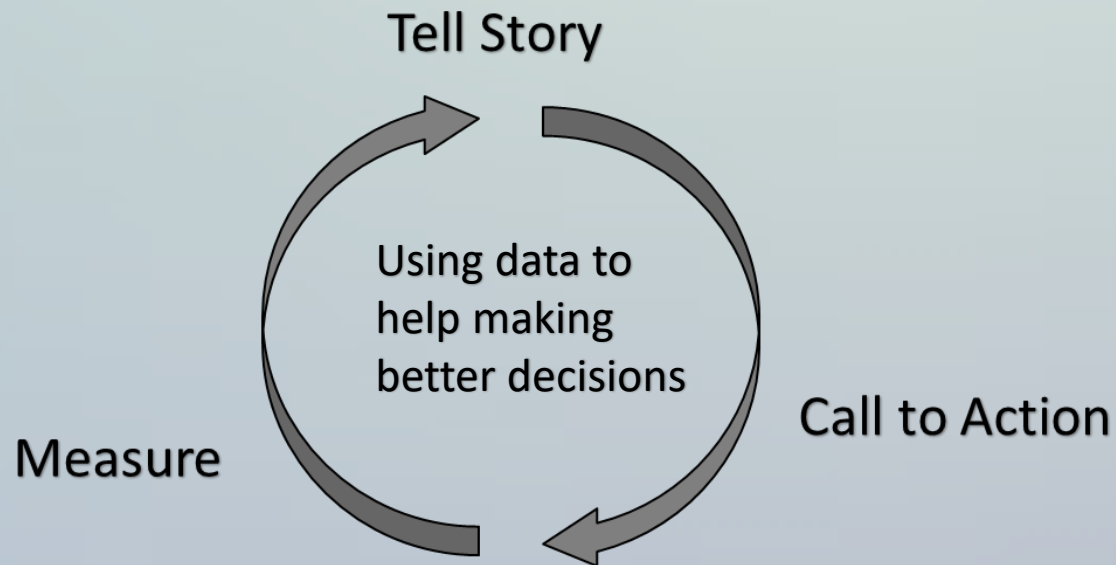

Power BI

Tableau

# Dashboard Benefits

- Visibility
- Ongoing improvement
- Time saving
- Performance monitoring

# Cognition and Visual Perception

- Brain processes visual information faster and more efficiently than text (Becker et al., 2011).

<https://www.cambridgecognition.com/blog/entry/why-monitor-cognition-in-drug-development>

# ArcGIS Dashboards

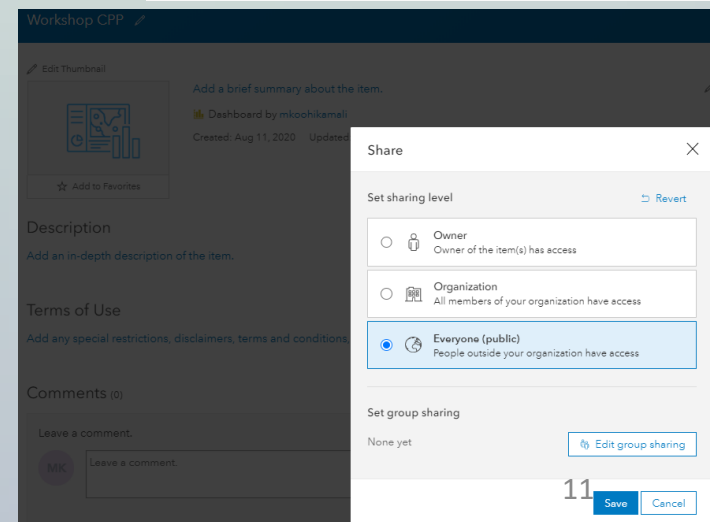

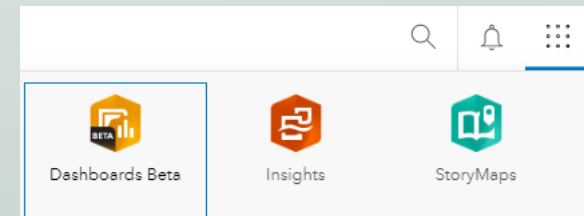

- ESRI as the industry leader of location intelligence products has made ArcGIS dashboard product.
- A spatial visualization tool to support performance monitoring, information sharing, and decision support on one page.
- Web client application of ArcGIS Online
- Configurable and customizable without the need to code

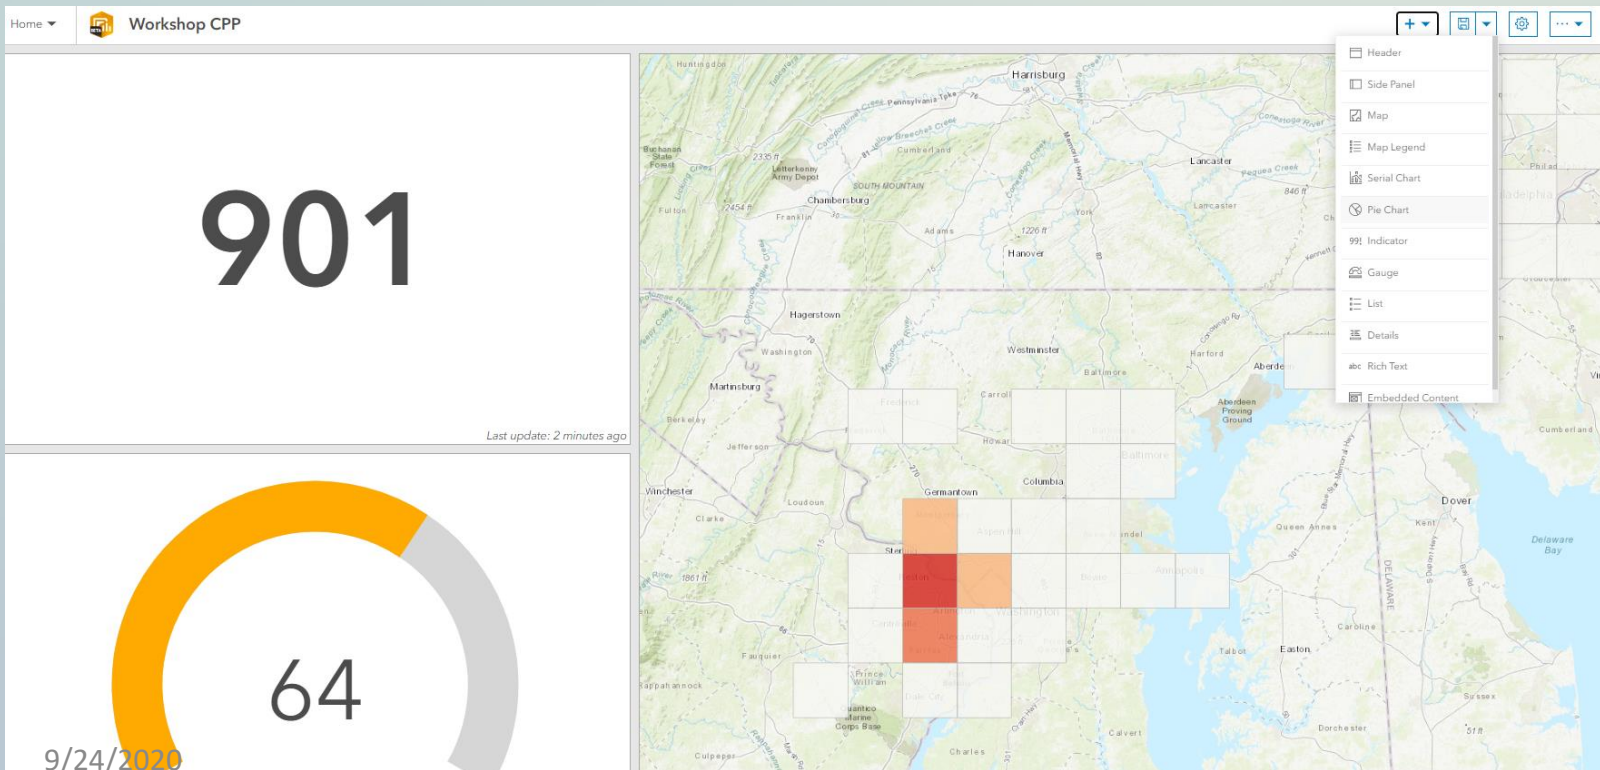

# How to Make an ArcGIS Dashboard?

- Get an ArcGIS Online License (CPP has free educational licenses)
- Log-in to ArcGIS Online
- Load ArcGIS Dashboard
- Create a Dashboard
- Share and Publish

# ArcGIS Dashboard Elements

- Based on an existing map layers in ArcGIS Online
- Add Desired elements based on the added map(s) such as Gauge, Chart, Indicator, etc.)

# Florida's COVID-19 Data and Map Dashboard

Total Cases  
**542,792**

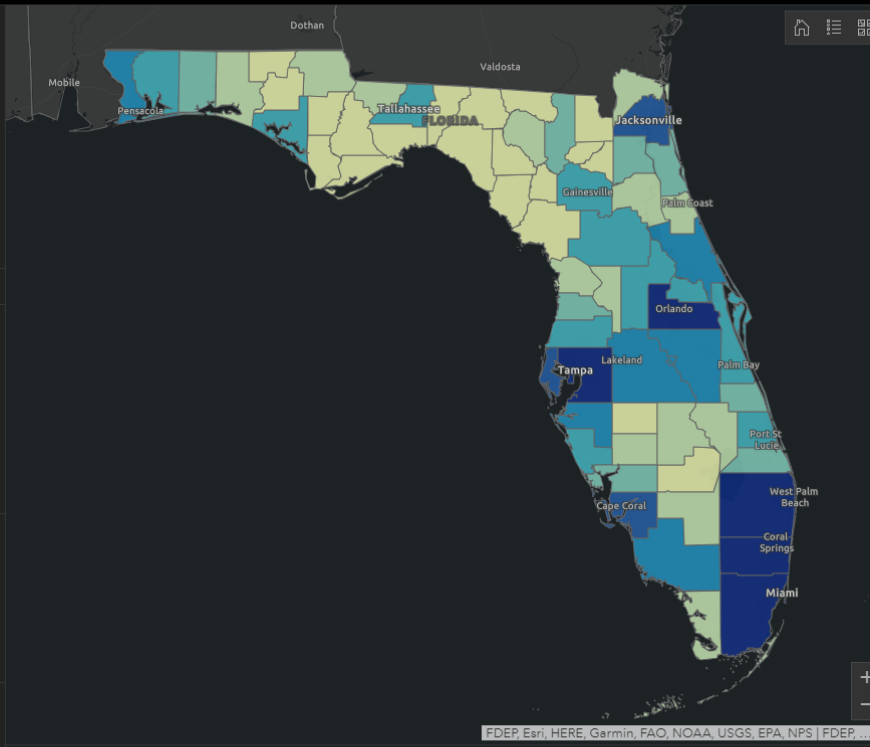

Cumulative Data for Florida Residents:

Positive Residents  
**536,981**

Resident Hospitalizations  
**31,354**

Florida Resident Deaths  
**8,553**

Non-Resident Deaths  
**132**

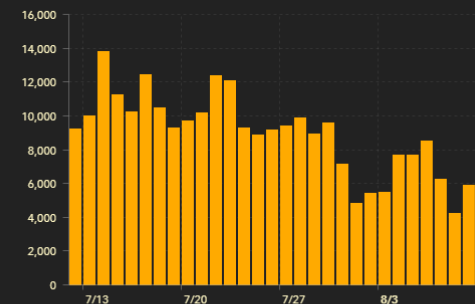

"Comparison of counties is not possible because case data are not adjusted by population."

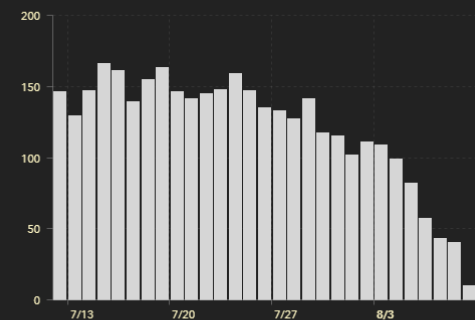

Data is updated every day at approximately 11 A.M. ET.  
[Click here to access and download data](#)

Recent Data for Florida Residents (Last 30 Days):

New Cases of Residents by Day

Resident Deaths by Date of Death

The Deaths by Day chart shows the total number of Florida residents with confirmed COVID-19 that died on each calendar day (12:00 AM - 11:59 PM). Death data often has significant delays in reporting, so data within the past two weeks will be updated frequently.

# Learning and Tutorials

- Free ESRI Courses

The screenshot shows the ESRI Academy Course Catalog page. At the top, there is a navigation bar with the ESRI logo and links for Products, Solutions, Support & Services, News, and About. A search bar and a user profile for Mehrdad Koohikamali are also present. Below the navigation bar, there is a secondary menu with links for Esri Academy, About, Catalog (which is highlighted), Certification, My Academy, and Help. A third menu shows options like Course Catalog, Courses by Schedule, Courses by Location, New and Retired Training, and Learning Plans. A light blue banner below the menu contains the text: "Get the latest information on training and certification during coronavirus disease 2019 (COVID-19)." The main content area features a dark blue background with the text "Explore Our Courses". Below this is a search bar labeled "Search Courses" with a search icon and a filter icon. Underneath the search bar is a "Browse by Topic" section with nine topic cards: Getting Started, Mapping & Visualization, Analytics, Data Management, Sharing & Collaboration, Scripting & Development, Design & Planning, Field Mobility, and Monitoring. At the bottom of the page, there are filters for FORMATS (Viewing All), PRODUCTS (Viewing All), and checkboxes for Maintenance and Free. There is also a SORT dropdown set to "Recently Added" and a VIEW toggle set to a grid view.
